ABOUT ACRIMOR

I have been active as a content creator on Twitch for more than three years. My focus is **100% completion**: I finish games in full - including achievements, side content, hidden areas and challenges.

Discipline, long-term progress and appreciation for the work behind every game.

WHY ACRIMOR?

100 %

The credits are not automatically the end. Hidden content, achievements and challenges are part of the complete experience.

APPRECIATION

My format gives space to content that often remains unseen in a regular playthrough - and to the work that went into creating it.

DISCIPLINE

Completion also means grinding, difficult challenges and long-term progress. The community follows the entire journey.

COMMUNITY

Multiplayer projects and Crowd Control regularly make viewers part of the progress themselves.

COMMUNITY INTEGRATION

MULTIPLAYER Dead by Daylight · ARK: Survival Evolved · Brotato · No Man's Sky

CROWD CONTROL Direct influence on single-player projects - used, among others, in Subnautica and Skyrim.
